Alien Jellyfish

Note from artist: The art depicts a house that is special to my Town of Farwell: The George and Martha Hitchcock House, as a mysterious haunted house in the middle of a spooky forest.

As a Child, I would walk past this house on the way to school, and it would be visible from the outside during recess. It was a creepy place that everyone in town thought was haunted, only aided by the fact that the owners would open the doors for Halloween as a haunted house.
