Human Services.

YOUTH INTERVENTION PROGRAM

- Is something in the way of your child being successful?
- Do you worry about your child having anger, depression, substance use, etc.?
- Is your child in trouble at school, home or with the legal system?

YOUTH INTERVENTION PROGRAM

HEAR WHAT YOUTH AND FAMILIES HAVE SAID...

PURPOSE

The Youth Intervention Program is offered to any youth in Mecosta and Osceola counties that may be in need of mental health services.

The Youth Intervention Specialist, a Master's level clinician, would complete a mental health screening during a face-to-face contact. Results of the screening would be shared with the youth and his/her parent(s).

The Youth Intervention Specialist would then help link the youth with the appropriate services. Categories include:

- Substance use
- Anger
- Depression
- Suicidal thinking
- Trauma
- Signs of mental/emotional distress

"It was nice to have someone actually listen to me."

"It helps me see on paper what I have felt."

"We now have a direction on what to do with our child."

"This gave us the help we have been looking for."

To meet with youth who are not reaching their potential or achieving success.

To meet with youth and assess their mental health concerns.

To link youth and families with services to help them through these challenges.
