Joint Commission
On Accreditation of Health Care Organizations

CMHCM receives financial support from the
Michigan Department of Community Health.

TELEMEDICINE

Telemedicine (also referred to as “telehealth” or “e-health”) allows health care professionals to evaluate, diagnose and treat patients in remote locations using telecommunications technology.

www.cmhcm.org

WHAT IS TELEMEDICINE?

Telemedicine consists of trained professionals who utilize the technology of videoconferencing through a secure and private internet connection.

The prescriber can see you, speak with you, provide services, prescribe medication, and refer to your health record.

Community Mental Health for Central Michigan (CMHCM) provides health services to eligible consumers. A team of prescribers are ready to assist you with quality care towards wellness.

Improved Quality – Studies have consistently shown that the quality of healthcare services delivered via telemedicine are as good those given in traditional in-person consultations.

WHERE DOES THIS TAKE PLACE?

Consumers will be scheduled with a psychiatrist, nurse practitioner, or physician assistant and the appointment will take place at your local CMHCM office.

Nursing staff will check your blood pressure, weight, and speak with you regarding any questions or concerns you may have regarding your physical and mental health.

You will be in a private session with the prescriber to further discuss your mental health and medication if prescribed.

COMMON QUESTIONS

Where does this take place?

This service will take place at the Community Mental Health office in the county you reside.

Can the doctor hear me and see me?

The prescriber will be able to see you, hear, and interact with you in a private setting to discuss your mental health. You can ask questions and express your concerns.

Is this being recorded?

Your meeting with the prescriber is never recorded. This is a private and secured communication that takes place with you, your guardian if applicable, and the prescriber.
